Dear

The person identified on the attached form has expressed an interest in being supported to attend a reflexology course. In accordance with the Mental Capacity Act an assessment of capacity to consent has identified that they are unable to provide informed consent. Could you please fill in part two of the enclosed form to indicate, to the best of your knowledge, whether you think they should attend the course.

I have included perceived benefits and risks. Please add any additional aspects you feel are relevant.

Yours sincerely,
